

ABOUT NDA+

NAD+ is an essential coenzyme for cellular energy production, DNA repair, and metabolic health. Over the years, NAD+ levels decline, impacting longevity, aging, and cellular function. This advanced formula combines NAD+ with powerful antioxidants and bioactive compounds that optimize energy, brain health, cardiovascular function, and cellular regeneration.

BENEFITS:

- ✓ *Delays cellular aging.*
- ✓ *Improves brain and cognitive health.*
- ✓ *Provides antioxidant protection.*
- ✓ *Supports cardiovascular health.*
- ✓ *Regulates circadian rhythm.*
- ✓ *Aids in liver detoxification.*

ADVANTAGES:

NAD+ is a comprehensive solution for those looking to optimize cellular health, enhance energy, and promote longevity. Its combination of bioactive ingredients helps combat aging, protect the brain and heart, and boost cellular regeneration for overall well-being.

WHY ROYAL NAD+?

NAD+ stands out for its advanced and synergistic formula, designed to maximize cellular energy production and regeneration. Its high bioavailability ensures efficient absorption, allowing the body to fully utilize its benefits. Additionally, its blend of antioxidant, neuroprotective, and adaptogenic ingredients enhances longevity and metabolic health. With guaranteed purity and free from harmful additives, this supplement offers a complete solution for those looking to improve vitality, protect brain function, strengthen the immune system, and optimize cardiovascular and metabolic health.

INGREDIENTS:

Resveratrol: A powerful antioxidant that supports cardiovascular health and activates sirtuins.

Nicotinamide Riboside (NR): A precursor to NAD+ that enhances cellular regeneration and metabolism.

Glutathione: Protects against oxidative damage, strengthens the immune system, and improves liver detoxification.

Quercetin: A natural antioxidant and anti-inflammatory that supports cardiovascular and immune health.

Astaxanthin: A carotenoid with potent antioxidant action, benefiting the skin, eyes, and brain.

Ashwagandha Extract: Reduces stress, improves sleep, balances hormones, and increases energy.

NAD+ (Nicotinamide Adenine Dinucleotide): Enhances cellular energy, protects DNA, and promotes longevity.
